

Demographic Questions

How many AP courses are you currently taking?

On average, how many hours of homework do you complete per night?

Are you involved in extracurricular activities?

Section 1: Academic Pressure (Items 1–6)

I feel constant pressure to earn high grades in my AP courses.

I worry about how my academic performance compares to my peers.

My parents/guardians place high expectations on my academic success.

I feel stressed about maintaining a competitive GPA.

I feel pressure to build an impressive college application.

I feel that my school environment is academically competitive.

Section 2: Anxiety (Items 7–11)

I frequently feel anxious about schoolwork.

I have difficulty relaxing because of academic responsibilities.

I experience physical symptoms of stress (e.g., headaches, rapid heartbeat).

I worry excessively about upcoming tests or assignments.

My academic stress affects my mood.

Section 3: Sleep Deprivation (Items 12–16)

On average, I get fewer than 7 hours of sleep on school nights.

I stay up late to complete academic work.

I feel tired during the school day.

Academic responsibilities interfere with my sleep schedule.

I sacrifice sleep to improve my grades.
